The Office has issued a preliminary draft of a LIMS data element dictionary. It now contains about 400 definitions and is expected to reach 800; this listing will be used by the development contractor in building the new system. This dictionary is important to the Offices of Logistics and Finance in that it will become a common reference for all users of the system. This document, when completed, will provide a first ever compilation of common terms and their definitions. [ ]

f. FBIS [ ] Program: April 13 marked the inauguration for production of two of the FBIS daily reports from output produced via the FBIS [ ] system. Prior to the change, typewriter copies of the Daily Report pages were furnished to the Printing and Photography Division (P&PD), OL, for photographing and subsequent printing. The change to the [ ] system now provides a compatible format for producing pages on P&PD photo typesetting equipment and the new laser platemaker. The conversion to typesetting reflects a significant change in text processing procedures and will provide a more readable format for FBIS Daily Report consumers. [ ]
